- **Contact Resistance – 20 milliohms (initial max) @1A,5VDC**
- **Insulation Resistance – 100 Megaohms (Min. @ 500VDC)**
- **Dielectric Strength – 1,000 VAC for 1 min.**

Markets for the PA4 series power pushbutton switch include the appliance and white goods markets, power tools, testing and instrumentation, and industrial controls, among others. For more information or quotes, please contact us at 800-867-2717.

E-SWITCH IS NOW ON TWITTER

E-Switch is now on Twitter

[Click Here to Follow E-Switch on Twitter!](#)

E-Switch has joined the phenomenon of social networking! We are now on Twitter and would love to have you follow our "tweets"! We will keep you up to date on product announcements, design tips and tricks and any other news we have.

Twitter is a social networking and micro-blogging service that enables its users to send and read other users' updates known as tweets. Tweets are text-based posts of up to 140 characters in length which are displayed on the user's profile page and delivered to other users who have subscribed to them (known as followers). We welcome you to follow E-Switch on Twitter.

About E-Switch. In 2009, E-Switch, Inc. acquired Lamb Industries and now offers one of the broadest switch lines available today. Both companies have been delivering innovative and quality switches to the electronics, telecom, high tech, instrumentation, industrial, appliance and consumer markets since 1979. Located in Minneapolis, Minnesota, and Portland, Oregon, their global reach extends to Europe, Asia and Latin America. Products include Rocker, Toggle, Slide, Tact, Pushbutton, Dip, Rotary, Keylock, Snap Action, illuminated switches, and more. E-Switch – Lamb Industries has local reps, distributors, engineers and account managers on hand to provide specifying assistance and quick response to requests, along with a top notch sampling and cross-referencing program. E-Switch – Lamb Industries' online catalogs include complete specifications, drawings and schematics.
